We have formed a proficient multilingual accounting team consisting of professionals with vast experience in the UAE, UK and Australia. With our expertise and deep understanding of the rules and practices of international accounting including the ones of Russia and the UAE, we are ready to provide our clients with complex accounting solutions.

TAX CONSULTING IN THE UAE

As the corporate income tax becomes effective in the UAE from 2024 (alongside the existing Value Added Tax (VAT)) our clients require timely adaptation of their business in compliance with the evolving regulations.

Our team of tax experts possesses a comprehensive understanding of the UAE tax legislation and is ready to assist you with a variety of tasks ranging from tax planning to facilitating VAT and income tax registration, as well as assist with preparation and submission of the required tax reporting.

Furthermore, in light of the ongoing negotiations between the Russian Federation and the UAE regarding a double taxation treaty, we have established a systematic approach for monitoring the news on the matter to ensure that our clients receive timely updates regarding any potential changes.

Shift your focus entirely to your business as White Square team expertly manages all your tax formalities, ensuring a seamless experience.

EXPANDING THE NETWORK OF CONNECTIONS IN THE UAE

In our commitment to deliver quality and responsive services to our clients, we are consistently expanding our network of partners in the UAE and are always working on optimization of our business processes. As partners of seven free zones in the UAE and collaborators with over ten banks, we provide holistic support to our clients. Furthermore, our services encompass the rapid issuance of Emirates ID and the legalization of Emirati documents, accomplished in a record time of just two working days. This timely process is made possible through our coordination with both the UAE Ministry of Foreign Affairs and the Russian Consulate.
